

ALI HAIDER NOORANI

Full-Stack Web & Generative AI Developer

Karachi, Pakistan • +92 344 2202648

alihaidernoorani@yahoo.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFILE

Full-stack developer building modern web and AI-powered applications with Next.js, React, TypeScript, Python and FastAPI, including conversational and retrieval-augmented (RAG) agents using the OpenAI Agents SDK. Currently studying the Certified Cloud Applied Generative AI Engineer programme at GIAIC. Seeking a role in full-stack web or generative AI application development.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, HTML, CSS

Frameworks & Libraries: React, Next.js, FastAPI, OpenAI Agents SDK, Tailwind CSS

Tools & Platforms: Git & GitHub, Vercel, Sanity (headless CMS), VS Code, Figma

Databases & AI Tools: NeonDB (Postgres), Qdrant (vector DB), Cohere

PROJECTS

Physical AI & Humanoid Robotics | Book

Dec 2025 - Jan 2026

Stack: Docusaurus, React, TypeScript, FastAPI, OpenAI Agents SDK, Cohere, Qdrant, NeonDB

- Built a book on Physical AI and Humanoid Robotics with Docusaurus, organising technical content into a clear, navigable format.
- Developed a retrieval-augmented generation (RAG) chatbot that answers reader questions from the book's content, using Cohere embeddings and a Qdrant vector store for retrieval.
- Built the backend with FastAPI and the OpenAI Agents SDK, with NeonDB for storage.

AI-Powered Todo App

Jan 2026 - Feb 2026

Stack: Next.js, TypeScript, Tailwind CSS, FastAPI, OpenAI Agents SDK, NeonDB

- Built a real-time task manager with filtering by status and priority.
- Built a conversational AI chatbot (OpenAI Agents SDK) that performs all task CRUD operations through natural-language commands, kept in sync with the UI.

Comforty | E-Commerce Website

Jan 2025 - Feb 2025

Stack: Next.js, TypeScript, Sanity, Tailwind CSS

- Built a full-stack furniture e-commerce site (product listings, cart, checkout) with the Sanity headless CMS, focused on responsive design and performance.

PROFESSIONAL EXPERIENCE

Ezzi Engineering

Karachi, Pakistan

Systems Engineer

Dec 2023 - Present

- Developed customised technical solutions across fire alarm, fire suppression and public address systems, from requirements to documented specifications.
- Developed technical product literature, supporting documentation standards.

Earlier: engineering internships at AUTOCOM and Allied Rental Modaraba, Karachi (2023).

EDUCATION

Coventry University

Coventry, UK

Postgraduate Research (PhD Studentship)

2020 - 2021

University of Sheffield

Sheffield, UK

MSc, Materials Science & Engineering (Merit)

2017 - 2018

Ghulam Ishaq Khan Institute (GIKI)

Topi, Pakistan

BS, Materials Engineering

2012 - 2016

CERTIFICATIONS & PROFESSIONAL REGISTRATION

- Certified Cloud Applied Generative AI Engineer programme - GIAIC, Feb 2024 - Present (in progress).
